Clean Up Day in Texas

Austin, Texas, April 18.—In pursu-
ance of a proclamation issued by the
Governor Colquitt today was observed
as "clean-up day" in cities and towns
and villages throughout Texas. A re-
duction in the annual fire loss of the
State was the chief object of the
movement. With this end in view civic
bodies and individual citizens joined in
a general campaign for the removal
of refuse, trash and debris which
might subject property of any kind to

destruction by fire. In all the public
schools the day was set aside for fire
drills and instruction in regard to fire
hazards and the simple methods of fire
prevention and rescue work.

25c A PINT FOR DEAD FLIES

This is a very strange offer, isn't it? But we mean just what
we say.

Until further notice we will give 25c a pint for all dead flies
brought to our store—The Rexall Store.

This same offer is being made by other Rexall Stores in other
cities and towns all over the United States.

As there are 6,000 of these stores, you can easily realize that
it means practical extermination of the house fly—providing we have
your cooperation—providing you—

JOIN NEARLY 6000 REXALL DRUGGISTS IN SWATTING FLIES.

Flies spread disease. They carry the germs from the sick to
the well. You are never safe from danger while there is a fly
around. How do you know where the fly that lights on your food
or on your baby's face has been. It is not only a matter of
CLEANLINESS, it is a matter of safety to

KILL EVERY FLY YOU POSSIBLY CAN.

With nearly 6,000 Rexall Stores all over this broad land, direct-
ing the campaign and furnishing the ammunition, the result will
not only be a vast decrease in the number of flies—with a correspond-
ing small number next year—but it will mean a tremendous bene-
fit to the health and comfort of nearly 100,000,000 people.

10,000,000 FREE REXALL WIRE FLY SWATTERS

To every adult person calling for one, we will give a Rexall
wire fly swatter with which to kill flies. We want you to join
us in this great work.

Our offer of the FREE FLY SWATTERS and our agreement to
pay 25c a pint for all dead flies brought to us is made in good faith

JOIN THE GREAT NATIONAL MOVEMENT IN SWATTING FLIES.

Every fly killed in April, means a thousand killed in June.

SCHOOL ABOLITION

BILL FAILS AGAIN

Oklahoma City, Ok., April 17.—Gov.
Cruce's plan for submitting the abol-
ishment of state schools to a vote of
the people failed for a second time in
the house today. The Woodard resolu-
tion as special order, came in to the
house for vote in favor of district
agricultural schools, the school of
mines, the Chickasha school, and the
six state normals. The three normals
receiving the fewest votes to be abol-
ished. The first amendment adopted
was by Mr. Wyand, submitting the
questions at the general election in
1914. Then the House adopted an
amendment by Mr. Bond, placing on
the ballot all of the state educational
institutions, including the school uni-
versity and the A. and M. college and
requiring all to receive a majority
vote in the election or be closed. The
vote on this was 49 to 32. On final
passage of the resolution as amend-
ed it was defeated by a vote of 49 to
28. It needed one more vote.

The house passed on final roll call
all of the normal school appropriation
but deferred action on the district agri-
cultural school until reports made by
the visiting committee could be print-
ed. Mr. Morris, a member of the com-
mittee visiting, recommends that all
of the district agricultural schools be
abolished. Mr. Morris and Mr. Durant
indulged in a heated argument during
the debate on the Woodward bill. The
The Stephens County member charged
that the location of a normal
school at Ada and one at Durant was
the result of corrupt politics.

In the senate final passage was ob-
tained on the House bill making
amendments in the primary election
law. The democratic caucus placed a
rider on the bill that the State Elec-
tion Board should be composed of
three members, two of whom were to
be named by the governor on recom-
mendation of the dominant political
parties. The secretary of the senate
is to be secretary of the board. Mem-
bers claimed that this was another
move to get rid of Ben W. Riley, re-
cently appointed by Gov. Cruce. They
explained in event that state went re-
publican the election board would
still be democratic.

By vote of twenty to thirteen the
Senate killed the bill appropriating
\$7,500 for a silver service for the bat-
tleship Oklahoma.

The House today unanimously adopt-
ed a resolution expressing confidence
in M. D. Bentley, the Federal farm
demonstration, against whom com-
plaint has been made to the agricul-
tural department in Washington.

Gov. Cruce signed the Vandeventer
bill authorizing the Corporation Com-
mission to put in force a passenger
fare other than two cents per mile.

CORPORATION COMMISSION MAY FIX PASSENGER RATES

Oklahoma City, April 18.—The cor-
poration commission now has full
power to prescribe passenger rates.
Governor Cruce Thursday signing
Senate Bill No. 2 by Vandeventer
which passed by the legislature to
take the place of the two and one-
fourth cent fare bill passed at the reg-
ular session and which was vetoed.

The bill amends the two cent fare
provision of the Oklahoma constitu-
tion by conferring jurisdiction on the
commission to fix rates for transpor-
tation of passengers other than two
cents a mile with the proviso that
the rates are not to interfere with
any accrued or vested right under ex-
isting law. The language of the bill
would not permit the re-establishment

of the two cent rate by the commis-
sion, as this would be a violation of
the federal court injunction but it
does authorize the commission to fix
any rate higher than that upon due
notice and hearings.

The corporation commission under
the bill may establish a two and one-
fourth cent fare, as was sought to be
accomplished by the Vandeventer bill
that was vetoed. The bill requires ap-
peals to be taken from any order of
the corporation commission direct to
the supreme court as appeals in other
cases are taken.

Now that both houses of the legislature have passed the appropriation for the Ada normal, the attitude of the governor will soon be known. The matter rests altogether in his hands for it is plain that the house would not pass the bill over his veto.

We have been looking over a report issued by Dr. Mahr state health officer concerning sanitary conditions in Oklahoma. He gives a lot of statistics concerning the water of various towns coming under his observation. All the report Ada gets is that one of the school buildings was at that time supplied from a well and it was bad. Nothing further is said on the subject, although Ada people have prided themselves on the purity of the water supplied from Byrd's Mill.

The language of Gov. Cruce and the legislature in their interchange of compliments would indicate that if they expressed their private feelings of regard for each other the newspapers would have to lay in a few pounds of extra dashes to be used in the warmest places of said communications.

The governor has approved a bill passed by the legislature empowering the corporation commission to fix passenger rates. However, the railroads are not likely to worry much about it for the first attempt the commission makes to lower the rate on any line will be met with an injunction from some federal court.

ELKS PUT ONE OVER INDIANS

LOCALS DEFEAT SIOUX INDIANS IN CLOSE GAME BY SCORE OF 10 TO 9.

One of the most exciting games of the season was played yesterday on the normal field. The B. P. O. E. of Ada defeating the fast Sioux Indian team by a score of 10 to 9.

It started off very one sided. The first frame brought the Elks 5 scores while the Indians had a difficult time in getting 1. But the Indians came back strong in the second inning and managed to put 3 men across the plate. This began to look bad for the locals thinking they had not played the first inning. From then on it was a fight for honors.

The feature of the game was the fast work of Johnnie Stewart, who made indirectly two double plays. He also handled the bat like a veteran. The feature of the visitors was the pitching of Nona, who struck out 10 men.

It looked like it might go extra innings, the Indians making two scores in the ninth, but Chauncey accepted a fielders choice and threw the man out at first.

OKLAHOMA CITY HOTEL MAN A SUICIDE

Oklahoma City, Ok., April 17.—Following the sound of a pistol shot, the lifeless body of Frederick Scherubel, manager of the Skirvin hotel here, was found in the bathroom of his apartment this afternoon. There was a bullet hole in his head and the pistol lay by his side.

A few hours previous to his death Scherubel had been complimented by the stockholders of the Skirvin Company upon his management of the hotel, and the only reason friends and relatives suggest for his end is that for several months he has been suffering from a nasal trouble, necessitating five operations, which afforded no relief.

Tuesday night Scherubel told a friend that he suffered intense pains in the head and at night was unable to breathe when asleep. For three nights, he said, he had been unable to sleep and told his friend that he did not see how he could live much longer.

Scherubel came to Oklahoma City from Muskogee and was well known in Joplin and Kansas City, Mo.

TWO WRECKS ON THE KATY

The Katy suffered two freight train wrecks in as many days, the north bound local freight cars going in the ditch north of Maud Wednesday afternoon, necessitating the detouring of the afternoon passenger via Holdenville and Shawnee. Thursday evening a car on the south local went off and blocked the track until this morning. The south bound passenger did not reach Ada until about 7 this morning and the north bound sidetracked here until the road was clear. No one was hurt in either wreck.

For Hair Health

If Rexall "93" Hair Tonic does not improve the health of your scalp and hair, we will pay for what you use during the trial.

We could not so strongly endorse Rexall "93" Hair Tonic and continue to sell it to the same people if it did not do all we claim. Should it not prove entirely satisfactory our customers would lose faith in us, we would lose their patronage, and our business would suffer.

If your hair is falling out or you suffer any scalp trouble, we believe Rexall "93" Hair Tonic will do more to eradicate the dandruff, give health to the scalp, stimulate new hair growth and prevent premature baldness than any other human agency.

We want you to make us prove this. We ask you to risk no money whatever. Buy a bottle of Rexall "93" Hair Tonic, use it according to directions for thirty days; then if you are not entirely satisfied, come and test us and we will promptly hand back the money you paid us for it.

We won't ask you to sign anything, nor even to bring the bottle back. We won't obligate you in any way. We will take your word. Could we do anything more to prove our belief in Rexall "93" Hair Tonic, and our honesty of purpose in recommending it to you?

Rexall "93" Hair Tonic is as pleasant to use as spring water and has but a faint, pleasing odor. It comes in two sizes of bottles, 50c and \$1.00.

You can buy Rexall "93" Hair Tonic in this community only at our store:

SOME HOT SHOT FROM GOV. CRUCE

SCORES COMMITTEE'S REPORT ON CONDITIONS AT GRANITE REFORMATORY.

Branding the house committee's investigation of the Granite reformatory as a star chamber proceeding, the main purpose of which was an effort to discredit the governor, charging that disgruntled members of the legislature, disappointed because they could not foist upon the taxpayers "iniquitous and outrageous" legislation, were seeking every means to injure his administration, and ultimately start impeachment proceedings, Governor Lee Cruce fired the hottest shot of the season into the camp of the lawmakers Thursday in the form of an exhorting message, which dealt boldly with personalities and criticized what is termed the lavish expenditure of the extra session.

Notwithstanding the governor with held his judgment as to the charges against Warden Reed and his assistant, he declared that if one-half of the report be true, they should be summarily dealt with. But he said that if the committee has misstated facts with reference to the warden as it did in regard to the board of prison control, no credence could be placed in the report. The percent of certain diseases in that institution, he declares is grossly misrepresented, the committee reporting 104 while the report made to the department of health shows only seventy-eight.

From time to time, the governor sets forth in his message that complaints were made to him concerning the institution, and the matter referred to the commissioner of charities and corrections who made a thorough investigation, and reported the general condition of the prison. On January 1, he declares, the chaplain, whose testimony is greatly relied on by the house committee, wrote that considerable good work had been carried on by him and that the institution was in excellent shape.

The message asserts that there is a representative and a senator in the legislature who live near the institution and yet they have made no complaint as to the condition of the reformatory. If the condition is as bad as the house committee reports, these gentlemen, declares the governor, should know something of the state of affairs.

Governor Cruce asserts that if he had signed the Muskogee fair bill and the redistricting bill, which would allow some ambitious members to go to congress, there would have been no such report as that returned by the house committee which compared the reformatory to the Black Hole of Calcutta and to Sodom and Gomorrah.

The governor declares that the question of the reformatory was brought before the attention of the legislature in November, 1912, when it was urged that it be definitely determined if there should be a reformatory in the state. The recommendation further sets forth that if the legislators felt that it was too expensive that the institution at Granite be abandoned and the prisoners be removed to McAlester where the facilities were better for handling the convicts.

The governor declares that Speaker Maxey in urging the special session promised that it would not last more than thirty days and that in fairness to the legislators they should draw

Economical Ironing

To iron economically you must not waste heat.

Ironing with ordinary flat irons is very wasteful of heat; most of the heat goes up the kitchen chimney; a lot of it is wasted in charring the ironing pad and in scorching the clothes. Ironing with a

Hot Point Electric Flat Iron

is quite different—all the heat is in the iron ready to go into the pieces ironed instead of going into the room or up the kitchen chimney. None of it is wasted.

To use only the amount of heat actually needed for ironing, be it either heavy damp pieces or laces, embroidery or other light goods is real economy.

That's why Hot Point Irons are used in thousands of homes throughout our country.

Interest in Murphy-Wolgast Bout. San Francisco, Cal., April 18.—Boxing fans are manifesting a lively interest in the 20-round bout between "Harlem" Tommy Murphy and former champion Ad Wolgast, which is slated for decision in the Coffroth arena here tomorrow. The 20-round draw fought by Murphy and Wolgast here several months ago was one of the fastest fights seen on the coast in a long time and this fact accounts largely for the interest displayed in their return engagement. Murphy has been training faithfully ever since his arrival here some weeks ago. Wolgast was a little tardy in beginning his work of preparation, but the reports from his camp today state that he is in the best of condition for the encounter. The sale of tickets indicates that the fight will be witnessed by a large crowd.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hair before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow.

Get a fifty-cent bottle from your druggist today. He will give you money back if you are not satisfied after a fair trial. Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

RAMSEY DRUG CO.

A NOVEL AND TIMELY SUBJECT.

Detective Wm. J. Burns in Exposure of "The Land Swindlers" a Three-Reel Kalem Production.

This production is taken from no time-worn mould, but shines in the unworn glass of novelty. Its theme is timely. It could have no better moral showing, as it does, both the prevalence and the folly of corruption in public life. To make the telling of the story effective and attractive there was but one method of treatment. The extraordinary resources of the moving picture must be used in an intelligent but withal lavish manner. The spectator must be taken into the halls of legislation, he must see the mysterious workings of official fraud in the sessions of committees, in secret meeting-places and in the homes of the conspirators. He must be made to see how the cunning of righteousness is matched against the craft of corruption.

It was necessary to show what harm political frauds work on the plain citizen, and how his wrongs are avenged and the law vindicated by one of those spirited and incorruptible public servants which have never been wanting in the history of American politics.

In these three reels all these things have been done. A crime-finder of national repute and his instrument of detection, now very well known as the dictagraph, are introduced on the screen with telling and sensational effect. The first reel of this production may well serve as a model of clever dramatic construction. The head of a typical American family in moderate circumstances is tempted by an alluring advertisement telling of the fortunes that can be made in the South by the purchase of rich but untitled land. The family give up their savings to purchase this land and are taken to their new home, which turns out to be a wretched white-washed cottage in the South, surrounded by worthless land. The spectator learns how a senator of the United States had secured possession of the land or probably nothing at all, and how his unscrupulous agent deals with the victims after they reach the land.

A young congressman learns of the fraud, little realizing that he is engaged to be married to the daughter of the arch-conspirator, Senator Archer. His attempt to right the wrong by an appeal to congress fails utterly because the committee to which the matter is referred consists of friends and confederates of the senator. The congressman now appeals to the detective whom he had heard in an address on the necessity of fighting public corruption. The detective at once starts upon a painstaking investigation.

The installation of the dictagraph and its practical workings are shown very plainly in all their details and are full of interest. The senator and his confederates discover how they have been trapped and the senator seeks refuge in flight. He takes passage on board an ocean liner, but even here his Nemesis pursues him in the

shape of the wireless telegraph. Rather than suffer disgrace the senator destroys himself by taking poison, while the young congressman is delivering an impassioned speech upon the floor of the House against the land frauds. The senator's daughter is at first stunned by the news of her father's shameful and violent death, but later reconciles herself to the situation and marries the young congressman who was the man of her choice. Nothing in these reels is left to the imagination of the spectator. He sees the very land which had been palmed off on the unsuspecting citizen and he is taken to the capitol of the nation where the great fraud had been hatched. The pictures give wonderfully true glimpses of official Washington. The scenic selections are perfect to the last degree. We are made to see the very squirrels at play on the capitol grounds. The scenes on the steamer on which the fugitive senator has embarked are dramatic and realistic in the extreme. The need of the exhibitor today is the true feature. This Kalem production is a real feature. It means more than a passing profit. It will hold the best patronage and increase our faith in the future of the motion picture.

ENDORSES BENTLY AND RAPS STATE BOARD
Oklahoma City., April 17.—The lower house of the legislature went on record today emphatically endorsing and supporting the federal government in its farm demonstration co-operation work in the state and by the same measure registered its vigorous protest against the piddling politics of the state board of agriculture in interfering with the work.
A joint resolution was unanimously passed by the house commending W. D. Bentley, the state agent for the federal government in farm co-operation demonstration work. It called attention to the excellent work done by Bentley; called attention to the work done in organizing about forty counties in the state and sets forth the fact that Bentley's work has been entirely free from partisanship and politics.
The resolution requests Secretary

Houston of the United States agricultural department to continue the co-operation work in the state and pledges the support of the people of the state.
The resolution may pass the senate this afternoon and it is believed it will be unanimous there.
About thirty minutes after the resolution had been passed by the house a delegation of Oklahoma City people appeared to ask that such a resolution be introduced.
The resolution was introduced by Wyand, Woodward and others.
U. S. MARSHALS MUST HAVE SEARCH WARRANTS
Muskogee, April 18.—United States marshals, enforcement officers and all federal officials are enjoined from entering on a man's property and searching it for liquor unless they first secure a legal search warrant from an officer legally qualified to issue the same.
The circuit court of appeals so decided today at St. Louis in the suit brought in Muskogee by Geo. M. Evans Jr., proprietor of the Fountain drug store, against S. G. Victor, Enforcement Officer Larsen and others.
The court reversed Judge Campbell who had sustained a demurrer interposed by the government and the injunction as prayed for by Evans was granted.
The full purport of the decision could not be ascertained this afternoon. Mr. Denton, who represented the plaintiff, merely being advised that the circuit court had reversed Judge Campbell and ordered the injunction. In the suit Mr. Denton raised the question that Muskogee was no longer "Indian country," and that the federal jurisdiction ceased when the enabling act was adopted. If the court has so held in the Evans case there is joy in store for the thirsty.
A similar question is now pending before the United States supreme court in the Bob Wright case.

Can't Help But Admire Babies
Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.
A woman's heart naturally responds to the charm and sweetness of a pretty child, and more so to-day than ever before since the advent of Mother's Friend.
This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.
Mother's Friend prepares the system for the coming event, and its use brings comfort, rest and repose during the term. This has a most marked influence upon the baby, since it thus inherits a splendid growing system of nerves and digestive function.
And particularly to young mothers is this famous remedy of inestimable value. It enables her to preserve her health and strength, and she remains a pretty mother by having avoided all the suffering and danger that would otherwise accompany such an occasion. Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.
You will find this splendid remedy on sale at all drug stores at \$1.00 a bottle, and is highly recommended for the purpose. Write Bradford Regulator Co., 134 Lamar Bldg., Atlanta, Ga., and they will mail you sealed, very instructive book for expectant mothers.
